“Shifting Shorelines: Adapting to the Future”

Sunday, June 13 – Wednesday, June 16, 2010
Hilton Wilmington Riverside Hotel
Wilmington, North Carolina

Oil Spill Information Session, June 15, 10:00 AM

The Deepwater Horizon oil spill incident in the Gulf of Mexico has highlighted issues surrounding offshore oil and gas activity in the U.S. Exclusive Economic Zone (EEZ). Many Coastal Society (TCS) members have expertise related to offshore oil and gas issues, in the natural, social and policy sciences and in policy and management applications of that science.

This includes TCS members who will be attending the TCS 22 meeting in Wilmington who are members of the Offshore Energy Exploration Subcommittee of the North Carolina Legislature. This Subcommittee has just delivered its report to the NC Legislature. These members will make themselves available at the TCS 22 meeting to discuss these issues as they related to the state of North Carolina.

Please join us for a presentation and questions and answer period on Tuesday, June 15 from 10:00 – 10:30 AM in the Magnolia Room of the Hilton Wilmington Riverside.
