

Coastal Management Connection Series: Promoting and Improving Local Coastal Resilience

Hosted by:

The Coastal Society

Coastal Forum Questions:

- How does the CZMA aid states, local governments and coastal communities in improving their resilience to sea level rise, climate change and storm impacts?
- What current programs, research, and outreach efforts are helping local communities strengthen their coastal resilience, and improve their economic circumstances?
- What lessons can be learned today that will positively impact the future?

CLOSING ARGUMENTS
